

Simple assembly for your Sharpak Zero sharps container

Place container on a sturdy, flat surface and place the lid on top of the container so the label lines up with the opening

Press down firmly on two opposite corners of the lid listening for a click to show correct assembly, then rotate and press down similarly on the remaining two sides

Double check the retaining devices are locked in for the safety of all users

Fill in the assembly date on the label on the side of the container and it is ready for safe use
