

# Simple sharps waste segregation with your Sharpak Zero sharps container

If the sharp being disposed of:

is contaminated with cytotoxic or cytostatic medicines, dispose into the PURPLE lidded Sharpak Zero sharps container

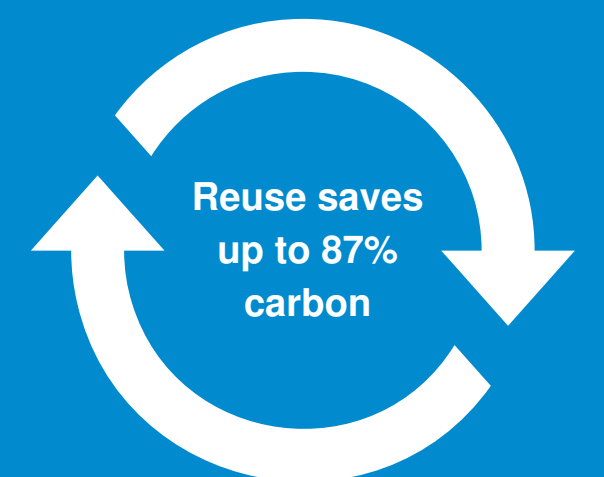

is partially discharged or contaminated with medicines other than those that are cytotoxic and cytostatic, dispose into the YELLOW lidded sharps container

has not been contaminated with medicines, dispose into the ORANGE lidded sharps container

In line with waste streams defined in HTM-07-01
